## Construction Update

---

### Private Features in City Right-of-Way

If you wish to protect private features from damage during construction, please temporarily remove them from the City right-of-way. [Visit the project website for a video demonstration of areas impacted by construction.](#)

[Get the most up to date construction schedule and phasing map \(PDF\).](#)

***The schedule may be shifted due to weather and unexpected delays.***

### Phase 1: Hyde Park Avenue Neighborhood and Hydra Court

- **Week of May 19:** Storm sewer installation will occur along with driveway patching and roadway patching in front of the replaced curb. Topsoil is planned to be placed Tuesday, weather dependent. After topsoil goes in, it's best to repair any irrigation or in-ground dog fences. The seeding and erosion control blanketing of the soil will happen at the end of the week or early next week.
- **Week of May 26:** No work will be done on Memorial Day. Milling of the roadway is scheduled for Tuesday and paving will follow a day or so after. Seeding and erosion control blanket will be installed if not completed the previous week.

### Phase 2: Ireland Way Neighborhood

- **Week of May 19:** Concrete and other removals will be getting marked in the neighborhood with white paint in anticipation of the contractor beginning work on the site on June 2. Please mark any private irrigation and wireless dog fences.

**All other areas of work will not begin until after the 4th of July and Pan-O-Prog.**

Further updates will be provided as the project progresses. ***The schedule may be shifted due to weather and unexpected delays.***

Please be cautious and reduce vehicle speeds when approaching crews working in the roadway. Construction personnel will notify drivers, via hand signals, when it is safe to pass around moving equipment.

**Contact Jake Johnson, the onsite City Project Representative, at 952-985-2794 or [jjohnson@lakevillemn.gov](mailto:jjohnson@lakevillemn.gov) for more information.**
